

Sprint 3 Report - Grocerease by Team Grocerease - 11/18/2018

Actions to stop doing:

- Members should find other tasks to work on if they get stuck on one thing for too long. There have been periods where members would get stuck on one issue and not make progress on any of the other features that the app requires.

Actions to start doing:

- Team should find more time to devote to the project. There have been periods where the team was not getting very much done due to other responsibilities.

Actions to keep doing:

- The Scrum meetings serve as solid progress reports. They are working well so far.
- Members should continue communicating with each other when someone needs help solving a particular problem.
- More time needs to be spent as a team working together. We are getting to a point where some members depend on the work of other members to continue. If we could delegate time to working on the project together, I think we would easily be able to overcome these dependencies, as communication in person is a lot faster and easier than online.

Work completed/not completed:

- User Story 1: Ingredient Catalogue (not completed)
- User Story 2: Barcode Scanner (not completed)
- User Story 3: Login page (not completed)

Work completion rate:

- Total number of user stories completed during the prior sprint: 0
- Total number of estimated ideal work hours completed during the prior sprint: 11.
- Total number of days during the prior sprint: 14.
- User stories/day: 0.2
- Ideal work hours/day: 1 hour
